3. Public Comments

Ted- Stockton Town is proposing to make necessary upgrades to the Culinary Water System which includes updating the water treatment plant system and providing power to the water treatment plant as well as the nearby well that serves as a backup water source.

To qualify for both state and federal loans and grants for these improvements, we are surveying all Stockton residents who are currently connected to the water system to determine their household income and adjusted gross income. This data will be evaluated only to determine if the project qualifies for federal and state financial assistance. This qualification is based on the median household income for some funding agencies and the median adjusted gross income for other funding agencies.

Brandon- Would like to purchase 37-40 acres of the Towns land that's on Railroad and Silver Ave. This property has a soil mitigation issue, where it has contaminated soil from the Jacob Smelter Project.
